POLICE DEPARTMENT**
- Serving with Integrity

SLCPD DISPATCH TIPS

SLC911 receives an average of 800,000 calls per year for all the emergency services they provide. When you have an incident that requires you to contact dispatch, there are a few things you can do to help yourself, the dispatcher, and emergency responders.

1. Give the exact address of the incident. If you don't know the address, try to find a close landmark or business to give the dispatcher so they can figure out where you are at.
2. Descriptions of the suspect(s) or vehicles(s) is crucial. If you can safely get the license plate, color make and model of a car or good clothing and physical description of the suspect, please do so. Even a partial license plate can be enough information sometimes.
3. Know that the dispatchers have certain questions they must ask you during your call. Do your best to remain calm and answer the questions as they ask them.

911 is the **emergency** number that should only be used when immediate police or medical response is needed for life threatening situations and crimes in progress.

801-799-3000 is the Police **non-emergency** phone number that can be used to report crimes that require police investigation when there is **no** immediate threat to life and the crime is not in progress.

The **Drug Hotline** is your direct link to provide valuable information to our narcotics detectives. If there is an on-going drug problem in your neighborhood please call **801-799-DRUG (3784)** and provide your information. You can remain anonymous when you call.

Graffiti is a big problem in Salt Lake City and Salt Lake County as a whole. If you have graffiti to report please call **801-972-7885**. This helps free officers for patrol calls.

We have recently implemented **Text 2911**. All carriers are now activated. While this is an important technological advancement for our **hearing impaired** community we are still requesting that the textor call us for any call that does not jeopardize their safety.

DISTRICT 6

- **In the month of March, District 6 had an increase in vehicle thefts and recovered stolen vehicles within the district area and surrounding areas.**
- Please don't leave your vehicles running unattended.
- Please remove spare or valet keys from vehicles.
- If you own a Honda up to a 2002, Nissan up to a 2002, or Subaru up to a 2004. Contact SLCPD Auto Theft Detectives for a free anti-theft club.
